

FPCP Closes \$3M Series A for RingLogix, a White Label UCaaS Provider

Four Points Capital Partners, LLC announced the closing of a \$3M series A round for RingLogix, a fast growing, unified-communication-as-a-service (UCaaS) provider based out of Miami, Florida. The global UCaaS market is expected to grow at a compound annual growth rate of 23.6% from 2021 to 2028 and reach USD \$210 billion by 2028 according to Grand View Research, Inc.

Proceeds from this investment will enable the company to accelerate product innovation and the growth of its single-pane-of-glass management console, further empowering MSPs to deploy VoIP and UCaaS solutions to their customers, while also offering the potential to significantly increase their margins.

Mike Martino CEO of Four Points Capital Partners stated that it was truly an outstanding accomplishment by Rich Tehrani, the Banker on the transaction. Mike went on to point out that it took Rich an extreme amount of effort, tenacity, and focus giving the adverse market conditions.

Rich Tehrani, CEO of RT Advisors said, "I am thrilled to be, on behalf of RT Advisors and Four Points Capital Partners, LLC, the banker involved in this series A capital raise. Throughout the process, RingLogix demonstrated they are a company with effective product-market-fit and their management has a solid vision for the future."

About RingLogix

RingLogix is a software company based out of Miami, FL, that develops RingOS, a service delivery platform that enables Channel Partners and Managed Service Providers (MSPs) to quote, activate, bill, and support their own branded VoIP and UC services. Powering 350+ providers and nearly 50k users, RingOS has proven to enhance the providers experience with automated workflows, integrated billing, and sticky customer solutions with profit margins greater than 70%.
